DETAILED ACTION

1. Claims 1-25 are allowed.
2. The following is an examiner's statement of reasons for allowance: Prior art fails to disclose or suggest a selectively configurable interconnection matrix defining an image path for providing selected outputs from one or more of stages of pipelines to selected inputs of one or more of stages of the said pipelines. Prior art, specifically, U.S. Patent No. 5,943,064 to Hong and U.S. Patent No. 5,598,525 to Nally **does disclose** pipelines with that process video and graphics data with plurality of stages but they **do not disclose** selective configurability of its inputs and outputs; rather the pipeline stages are fixed in its input and output configurations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
